

I understand that the Banking industry is trying to weaken the Wisconsin No Call List through FCC action. Let me make this clear: I PAY for my phone and do not want any business to use it to try and sell me unwanted products. The FCC must respect the rights of citizens Wisconsin and other states to not to be bothered by telemarketers. Remember you work for the citizens of this nation not the businesses. NO one I know wants to get phone calls from telemarketers.
